

## **Rules for Use of the Video Tower**

St Albans School have given us permission to use the pitch side video tower on the astroturf however insist that we follow the guidelines in their Risk Assessment as conditions of use. The below rules are a summary of the relevant precautions in the Risk Assessment.

The original Risk Assessment can be found here: [SAS Video Tower Risk Assessment](#)

1. Always put up cones around the tower when it is in use to warn people to keep clear.
2. Always untie the ladder from the fence and use this to ascend / descend the tower.
3. Never use the frame of the tower as a means of ascent or descent.
4. Ensure the treads on the ladder are not slippery before climbing the tower.
5. Never climb or descend the ladder carrying equipment - instead have it passed up to you once on the tower platform, or down to someone else before descending.
6. Do not use the tower if the weather forecast predicts lightning.
7. Cease use of the tower if the weather changes and lightning is believed to be possible.
8. Ensure the chain barrier is always closed when on the tower platform.
9. Ensure the ladder is secured against the fence after use of the tower is finished for the day.
